Career Explorations

Ages 14 and up

Faulkner State

CPd
Center for Professional Development

3D Animation & Visual Effects
June 15th - June 19th
Monday - Friday   9am - 4pm $250

Come explore the world of 3D Animation! In this introductory camp, you will get hands-on experience with Autodesk's Maya software, which is used in a number of professional studios around the world. You'll learn basic modeling and animation techniques and gain experience creating your own art, manipulating images and graphics, and creating movement in our green screen cyclorama wall studio. All supplies and lunches will be provided during the camp.

Healthcare
July 13th – July 16th
Monday – Thursday 1pm – 4pm $125

Have you thought about working in Healthcare, but you do not know where to begin or what field interests you? This course will help clarify students understanding of specific healthcare careers and educational requirements to reach their goals.

Forensic Science
June 15th - June 18th
Monday - Thursday   8am - 12pm $125

Is CSI your favorite show? Come explore the field of forensic science through onsite labs, computer- aided labs and more.
