

Center for Professional Development

is excited to offer...

Monocot / Eudicot Workshop for Homeschoolers

High School Level Only

3 Contact Hours \$25

Course Overview:

In this exciting workshop, students will gain knowledge of flowering plants or angiosperms (phylum Anthophyta). The workshop will compare and contrast the phylum by the classes: Monocot and Eudicot. Students will view microscope slides of leaves, roots, and stems. They will dissect various flower arrangements, and leaf arrangements as well as identify common trees of Alabama by using a dichotomous key.

Campus Minimum 25 / Maximum 30
